**Re:** Invasive Mosquito Alert

**From:** Gregory Fromm/Assistant Superintendent  
Carlos Jimenez/Director of Maintenance

The El Rancho Unified School District is aware of the concerns regarding the invasive mosquitos. Please eliminate standing water to prevent mosquito activity. Attached is an informative booklet from the Los Angeles County Vector Control District Office and an article from the Whittier Daily News that can assist our parents and staff to understand the steps for preventive measures. This will be an ongoing issue. Please make copies for public distribution. For more information, you may visit the Vector Control District website at <https://www.glacvcd.org/residents/>.

Respectfully,

*Vanessa Bustos*  
Clerk II
