

Standing Water Action Team

SWAT LAB

The SWAT Lab is revamped 33' mobile science lab. The lab's science program is free at no-cost dedicated to educating students.

Standing Water Action Team experts inspire a new generation of "public health heroes". Youth make positive change in their communities by applying the knowledge gained about public health and environmental sustainability.

Funded by the Greater Los Angeles County Vector Control District and the Mobile Science & Vector Education Foundation.

The Foundation is a nonprofit, 501 (c)(3) organization.
